

10 Dec 2019

Capt. Iosif Voutsinos
DPA & Marine Manager
Almi Tankers S.A.

Letter of Appreciation

Dear Iosif,

The Nautical Institute thanks you and your company for your valuable contributions to its international and confidential Mariners' Alerting and Incident Reporting Scheme (MARS) in 2019.

Founded in 1992, MARS is the industry's leading international confidential incident reporting scheme designed to disseminate 'lessons learned' to the commercial maritime industry.

MARS reports are disseminated by The Nautical Institute world-wide, via the Internet, the Institute's professional journal Seaways, LR Fairplay's 'Safety at Sea International' and regional publications in languages other than English.

These valuable contributions will be used by other professionals in the global maritime industry to improve operational, environmental and commercial safety, and to achieve continuing professional development.

Your participation in MARS is evidence of your commitment to the highest ideals of quality management and social responsibility, as sought through schemes such as the ISO Standards, the ISM Code, and the Tanker Management Self-Assessment (TMSA) initiative.

The Nautical Institute welcomes your continued support for MARS in 2020 and beyond.

Yours faithfully,

Paul D. Drouin, MM FNI, Editor - MARS
