Dear Cpt Dimouleas,

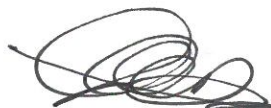

Subject: Letter of appreciation

On behalf of Lloyd's Register, I am writing to you in recognition of Almi Tankers SA's outstanding port state inspection performance in both the United States Coast Guard and European and North Atlantic (Paris MOU) inspection regimes.

Over the last ten years (2010-2020), Almi Tankers has consistently demonstrated an average observation rate well below global fleet benchmarks (0.04 compared to 0.57 for USCG and 0.02 compared to 2.44 for Paris MOU) with zero observations across the fleet for the majority of years during this period. In addition, Almi Tankers SA's record in Safety Management System External Inspections remains flawless, with zero non-conformities in more than 60 ship and office external audits held since 2010.

As safety is part of Lloyd's Register's DNA, we greatly appreciate your company's dedication and commitment to safety with this excellent performance and we are grateful for your collaboration, sharing our purpose to work together for a safer world.

Yours sincerely,

Mark Darley
Marine & Offshore Director

Working together for a safer world
