

# LETTER OF RECOGNITION

---

awarded to

for its outstanding performance and technical management of its fleet under DNV class

This award celebrates:

- Consistently superior quality and safety performance.
- Zero Port State Control (PSC) detentions over a 41-year life span of two VLCCs and two Suezmax tankers.
- Achievement and maintenance of six ISO certifications: ISO 9001, ISO 14001, ISO 22301, ISO 27001, ISO 45001, ISO 50001.

In an increasingly complex and highly regulated maritime landscape, consistent operational performance is a defining indicator of robust technical management and a strong safety culture.

By maintaining exceptional standards across its fleet, Almi Tankers demonstrates a disciplined and forward-looking approach to vessel operations - where safety, reliability, and continuous improvement are embedded in everyday practice.

Delivered during Posidonia 2026
